

I am opposed to any effort by any government agency to control the freedom that my wife and I have to listen to whatever we want to. Satellite radio services, such as XM and Sirius, provide valuable services to the listening public. I, for one, enjoy the entertainment and information my satellite service provides and do not want it limited or curtailed in any way. We have plenty of governmental interference in our lives as it is. Also the NAB does not, cannot, and will not dictate what I listen to on the radio.
